

Intelligent High-brightness Lighting Solar Light

25W | 40W | 60W | 100W

Description

Main Features:

- Lighting mode: **light control sensor + remote control function to meet your choice**
- **Automatic light switch by light induction**
- **During the day, the solar panels are charged and the lights are not bright**
- **The light automatically turns on and enters the lighting state at night**
- **Remote control switch light for timing 3 hours / 5 hours / 8 hours optional**
- When using the remote control to the solar light, the product will give priority to the remote control command and will not be controlled by light
- If you need to turn on the lights during the day, you can switch the lights through the remote control
- For home, garden, yard use

Parameters:

- Battery: built-in 10Ah 5.2V 30000 Li-ion battery
- Remote control battery: 2 x AA battery (included in the product)
- Charge and discharge times: 3000 times
- Light source chip: 5730 wafer chip
- Lighting range: 150 m²
- Charging time: full 4-6 hours (in sunny conditions)
- Material: die-cast aluminum lamp housing + tempered glass + aluminum frame solar panel
- Line length: 5m waterproof double core plug quality cable
- Waterproof rating: IP65
- **25W** solar panel: 6V x 8W; aluminum frame solar panel: 234 x 340 x 17mm
- **40W** solar panel: 6V x 10W; aluminum frame solar panel: 235 x 350 x 17mm
- **60W** solar panel: 6V x 18W; aluminum frame solar panel: 400 x 360 x 17mm
- **100W** solar panel: 10V x 25W; aluminum frame solar panel: 460 x 340 x 17mm

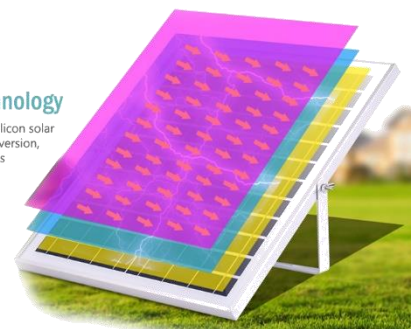

Intelligent light control

During the day, the solar panels are charged and the lights are not lit. At night, the lights automatically turn on and enter the lighting state. After the second day, the lights went out and the solar panels began to charge.

Solar power technology

High-quality polycrystalline silicon solar panel, high photoelectric conversion, fast charging speed, 4-6 hours full, can also be charged on cloudy days
